```

    4.4.   Return to workstation as the student user.

```
[ceph: root@clienta mnt]# exit
[admin@clienta ~]$ exit
[student@workstation ~]$
```

Finish

On the workstation machine, use the lab command to complete this exercise. This command will not delete your Ceph cluster or modify your cluster configuration, allowing you to browse your expanded configuration before continuing with the next chapter.

```
[student@workstation ~]$ lab finish deploy-expand
```

This concludes the guided exercise.
