▶ **9.** Return to `workstation` as the `student` user.

```
[ceph: root@clienta /]# exit
[admin@clienta ~]$ exit
[student@workstation ~]$
```

▶ **10.** Create a replicated pool using the Ceph Dashboard.

10.1. Open a web browser and navigate to `https://serverc:8443`.

10.2. Log in as `admin` by using `redhat` as the password. You should see the **Dashboard** page.

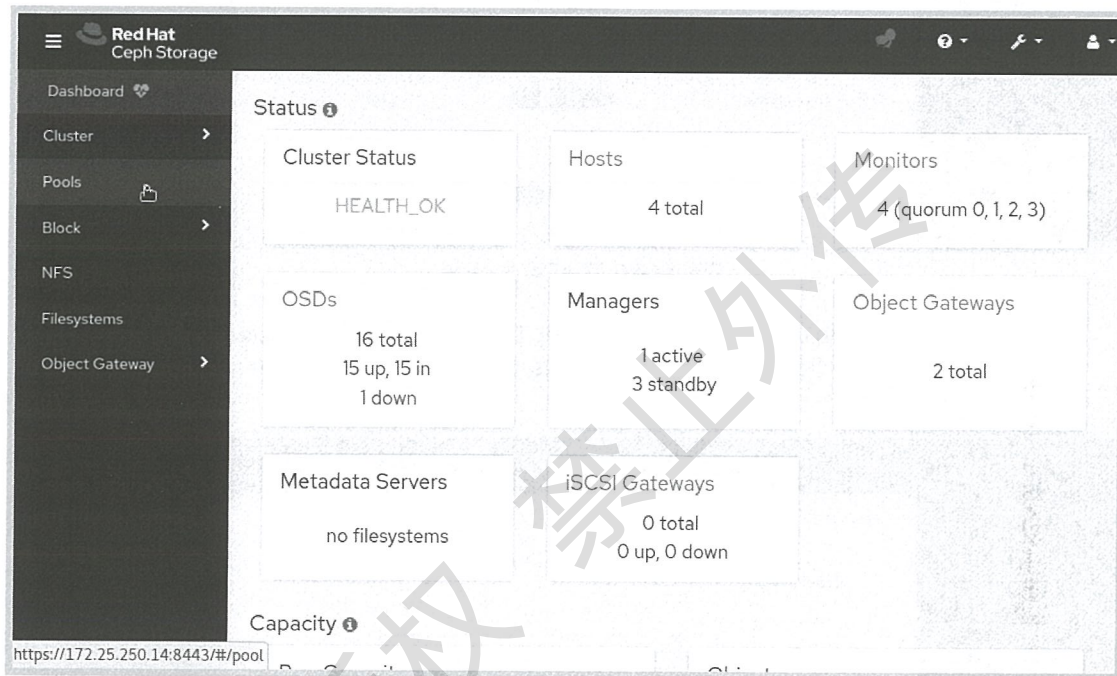

Figure 4.5: The Ceph Storage Dashboard

10.3. Click **Pools** to display the `Pools` page Click **Create**.
